

**Consultative Group on Biological Diversity**  
(San Francisco, CA)  
*General Support*

**Total Award: \$5,000 over 1 year**

***Presidential Authority Grant***

For membership and general support of the Consultative Group on Biological Diversity (CGDB) for 2004-2005. CGBD works to 1) create partnerships among funders in order to strategically address the challenges of accelerated biological degradation and the increasing threat to global biodiversity; 2) improve the quality of grantmaking by connecting member foundations with significant opportunities worldwide and with respected scientific resources; 3) increase the quantity of grantmaking in support of efforts to conserve biological diversity; 4) identify gaps in current funding patterns and bring them to the attention of foundations which are active in biodiversity programming; and 5) broaden the public constituency for biodiversity conservation.
