

**Rockefeller Family Fund, Inc.**

(New York, NY)

*Environmental Grantmakers Association*

**Total Award: \$50,000 over 1 year**

***Presidential Authority Grant***

For membership and general support of the Environmental Grantmakers Association (EGA), a project of the Rockefeller Family Fund, Inc., and to support the 2004 EGA Fall Retreat and planning for the 2005 Fall Retreat. EGA encourages collaboration and synergy among members, within the environmental movement, and between the environmental movement and other social change movements; increases the effectiveness of environmental philanthropy; and diversifies the field. The annual retreats and ongoing series of briefings and publications engage members in educational and collaborative opportunities so that they may gain a stronger awareness and understanding of the issues, obstacles, and opportunities that affect their environmental grantmaking. Support will enable the Association to continue its ongoing programming, produce the Fall 2004 retreat, and plan for the Fall 2005 retreat.
