Nonprofit Advocacy Project and Foundation Advocacy Initiative

Presidential Authority Grant

To support the Nonprofit Advocacy Project and Foundation Advocacy Initiative, two projects of Alliance Justice. Working in-tandem, the projects respond to ongoing threats to nonprofit advocacy and advance a proactive agenda to strengthen the ability of nonprofit organizations and foundations to participate in public policy and advocacy. The projects will hold targeted workshops that build on the capacity of grantmakers and nonprofits working on the environment, health care, arts, education, and other areas to participate in the policy process while complying with legal restrictions on nonprofit advocacy. Furthermore, the initiatives will provide direct, up-to-date technical assistance, and produce plain-language publications for NCF and like-minded grantmakers, making the rules governing advocacy accessible for non-legal staff.
