## The Artist as Activist

The Nathan Cummings Foundation presents

## Romare Bearden: The Artist as Activist

An exhibition organized by the Romare Bearden Foundation with guest curators C. Daniel Dawson and Robert G. O'Meally.

*Romare Bearden: The Artist as Activist* examines how an American artist agitated for change through the power of his art and writing. This show traces Bearden's evolution into a true master artist whose work changed our ways of seeing the world and thus our readiness for action in it. On display will be original works as well as examples of his magazine covers and editorial cartoons.

This exhibition is on view from April 28, 2011–July 22, 2011 at the Nathan Cummings Foundation.
